THE California Democratic Convention took particular pains to ask the National Convention not to nominate Mr. JUSTIN FIELD of that State. TILDEN was proclaimed the first and THURMAN the second choice of the California Democracy.

THE Hennepin Canal scheme was knocked cold in the House yesterday and will not reappear this session. But it will probably get another Mississippi River Convention to endorse it and return next year to worry the River and Harbor bill.

THE Indian Commissioner has ordered the discontinuance of the annual sun dance among the Crow Indians. As a substitute the Great Chief LOGAN of the Big Injuns, is introducing a crow feast which is having a great run, and which is expected to last six months.

PRIVATE DALELL has not written a line and Ex-President HAYES has flatly refused to tell a reporter what he thinks about the BLAINE and LOGAN ticket. In many quarters where enthusiasm was expected to break out with volcanic force, a deep and solemn hush broods over the scene.

MR. THEODORE ROOSEVELT of New York, who was quoted in a St. Paul dispatch as having said that he would not personally oppose BLAINE, now telegraphs to the New York Evening Post that he did not say any such thing. He adds: "I may have said I opposed BLAINE for public reasons, not personal to myself." So it seems that BLAINE did not capture a single Republican reformer with his nomination.

THERE is a man in England named ANDERSON, who is considered smart enough to represent the city of Glasgow in the English Parliament, and who is as enough to announce it as his belief that Earl GRANVILLE has demanded of the American Government the suppression of O'DONOVAN ROSSA's paper, the United Irishman, and of PATRICK FORD's paper, the Irish World. Mr. ANDERSON should be decorated with a blue ribbon as the champion of Parliament. If he were in this country he would probably be found insisting in double leads that TILDEN had not declined the nomination.

JOHN BULL has the privilege of being wrong-headed, but he exceeds his privilege when he announces that he is irritated against the American authorities because they have not received any communication from the British Government concerning dynamite conspiracies. Such, at least, is the meaning of the following, which appears as a special cablegram in this morning's *Globe-Democrat*:

Special cablegrams from Washington, announcing that the United States Government has received no communication from England concerning American dynamite conspiracies against the British Government, and mediates no suppressive action, have kindled anew the feeling of irritation against the American authorities.

We extend our cordial sympathy to those brave true-hearted Republican Germans who last night sat down to a feast of crow at Schnell's Garden. The German stomach does not take kindly to crow; especially repugnant is the species known in Maine as the *Corvus Blaenensis*, and in Arkansas as the *Corvus Mulliganus*. But these old campaigners who had stood by their party through thick and thin illustrated once more the stern and sturdy stuff which makes Teutonic heroism. Dr. STANHOPE swallowed his crow as if it were a quail on toast, and NICK MEYER never let on that he was not getting away with a Hamberger steak. It was beautiful, it was touching. The sight brought tears to the eyes of many.

Some of the leading business men on "Change" have circulated a paper calling on the representatives of the business interests of St. Louis to secure proper representation in the Chicago Convention. This is a good idea, but it will need some very hard work to make it amount to anything more than a "d-d barrel of idealism." Nothing can be accomplished by merely circulating a paper, and we tell our friends on "Change" that if they propose to obtain any recognition from the men who run the local Democratic machine in St. Louis there is only one way to do it, and that is to compel it. The machine in St. Louis is not run by amateurs. It is run by very practical men, who freely said when the attempt was made by "the leading citizens" to secure the convention in St. Louis, "You fellows only" got the convention, but

we'll send the delegates to it." We trust that no one on "Change" or elsewhere is so simple as to suppose that the machine will withdraw from its purpose merely for politeness sake.

THE JULY TICKET.

Mr. TUTTER's letter has called forth impromptu expressions from leading Democrats all over the Union in regard to their next choice for President. These expressions afford a strong assurance that the sentiment of the party is all right and pretty well informed, and that if the delegates reflect it in their action there will be no blunder in the July nominations.

First and foremost, the Democratic mind appears to turn instinctively to Gov. CLEVELAND of New York as the most prominent and attractive figure in the field, and one crowned with all the omens of victory. Without a single flaw in his record as a true Democrat of the broad and brawny type, there is in him a combination of the qualities that have made him, in recent contests far stronger than his own party or than any party ever was in his great State. The unanimity with which all the Independent and Republican elements opposed to the Jules ticket implore the Democrats to nominate him is a tribute never before paid to any Democrat. His brilliant successes and the masterly manner in which he has met all the difficulties of his position as Gov. TILDEN's successor make him the most popular and powerful candidate that was ever put forward as the favorite son of the Empire State.

Next to CLEVELAND in Democratic preferences comes Senator BAYARD, the eminent and spotless Senator from Delaware, whose name is also favorably received by the outside voters who are asking the Democrats to save them to BLAINE. The only thing against him is his location, and the fear that his attitude during the war might weaken him in some of the doubtful States.

The favorites after BAYARD are ex-Senator McDONALD of Indiana; Ohio's great and greatest jurist and statesman, noble old THURMAN; the brilliant and popular Governor HOADLEY of Ohio, and such honorable and able men as CARLISLE, MORRISON, RANDALL, SLOCUM and ROSENCRANZ.

This is a brilliant list of able and eminent men, and there is not a tattooed man among them.

PROSCRAMING German-American citizens as candidates for office "because they hail from a country which is radically opposed to American institutions," would be as justifiable, in the *Globe-Democrat's* opinion, as voting against BLAINE "because he hails from a prohibition State." But our German citizens, it should be remembered, do not "hail" from Germany in the same sense that BLAINE "hails" from a prohibition State. They are not responsible for Germany's opposition to American institutions. On the contrary, they have given the highest possible proof that their preference for American institutions is stronger than their very natural and commendable love of their race and their fatherland. Mr. Blaine, however, voluntarily chose a prohibition State as his home, lives there yet, and having been for twenty odd years the favorite and master spirit of its dominant party, is largely and undeniably responsible for the prohibition fanaticism which distinguishes that State. No German opponent of prohibition can vote for BLAINE any more than he can uphold BISMARCK as a teacher of genuine Republicanism.

THE statement that Mr. ADOLPHUS BUSCH, of the Anheuser-Busch Brewing Company, had announced his opposition to the Republican ticket, would ordinarily have little significance, and we are very sure that he is the last citizen who would wish to be brought forward as a national arbiter. But in the present instance, when we name Mr. BUSCH as an opponent of Blaineism, it means that the German sentiment of this country is afraid of BLAINE.

Mrs. GABRIELLE GREENLEY, daughter of Horace Greeley, was injured seriously at Chappaqua Monday evening. A horse that she was driving ran away, throwing Miss Greeley out of the wagon, breaking her right shoulder and injuring her internally.

Mrs. MUMMERA to a reporter who, on Saturday, had boarded the steamer Arizona to see the actress off. "See here, this lace wrapper that I hold up is the garment that I die in as Adrienne Lebourcier, and I'm so fond of it that I always pack it myself with my personal effects. I positively don't believe I could do without it."

A YANKEE girl writes home: "I haven't seen a man in a month of Sundays. We were out taking a 'constitutional' Saturday, and came across a scarecrow in a cornfield. All the girls ran for it at once, and I only managed to secure a part of the skirts of his coat. Still, it was something."

New York, June 13.—The World says: "The Independent Republicans, finding reform within their own organization impossible at this time, have a perfect right to say to the Democracy, 'Now prove to us that you are honestly in favor of a change in the interest of reform, and not a merely change of name for the sake of a modern social philosophy. Well, we think very likely the coming man will come to live out of town until the assessors have been around, just as the present man does."

Mr. ADAM, editor of the Paris Nouvelle Revue, who is retaining some notoriety by her salacious sweepings of distinguished people, is rich and still youthful in face and form, though she reluctantly admits that she is a grandmother.

Why Headly is Strong With the Germans and Why Blaine and Logan Are Weak—A "Personal Liberty" Plank Asked for at Chicago in July.

The attitude of the German press on Blaine and Logans nomination is one of uncompromising hostility. A Post-Dispatch reporter called at the America office upon Dr. Preuss, the managing editor, and asked him why the German Republicans had so generally determined not to support Blaine. Said the doctor: "In the first place, the German press is a man personally distasteful to them for two reasons: first, because they do not believe that he is a pure German; his life has not been such as to make him fit candidate for President; and, in the second place, it is believed that if he were elected, he would bring in a foreign policy which would not meet the German-American view at all. We are in the condition of being divided between America and Germany, a condition of things which we do not at all desire. For instance on a question like that of the German-Americans, the German press would have to choose between a Jingo policy which would not meet the German-American view at all.
